

The Society of Will Writers Members Charter

The Society of Will Writers exists to set a high standard of Will Writing, to maintain and uphold that standard in order to promote good practice and the protection of our clients in legal terms.

Entry to the Society demands impeccable high level application to the needs of those desirous of making their last wishes known so that there is no possibility of any misunderstanding or miscarriage of justice to the detriment of their appointed heirs or legatees.

The prestige of the Society is the collective standing of all its members. The designatory letters awarded by the Society are the assurance to clients, employers, associates and the public at large that the man or woman who is entitled to them is a person of ability and integrity.

Applicants who are elected to share this status must also share the obligation to maintain it. It is the essence of membership that all should act to the best of their ability to maintain the reputation of themselves and their fellow members.
